

CASE HISTORY

New Drinking Water Reservoir in Guayaquil City

CONTRACTOR

Conciva

CUSTOMER

Interagua

LOCATION

Guayaquil City, Ecuador

PRODUCTS

MCI®-2005 NS

PROBLEM

The construction of a new 4,500 m³ (5,886 yd³) drinking water reservoir had been proposed and the best protection was needed to extend the service life as long as possible.

APPLICATION

Over 850 cubic meters of reinforced concrete was poured using MCI®-2005 NS at a dosage rate of 1 liter per cubic meter (1.5 pints per cubic yard).

CONCLUSION

The UL NSF Standard 61 approval of MCI®-2005 NS solidified this project and will continue to be a selling point for future reservoirs.
