LOCATION

Montreal, Canada

PRODUCTS

VpCI®-126 Film

PROBLEM

A major Canadian aerospace manufacturer was having corrosion issues with landing gear parts during manufacturing and transportation between surface treatments. They were seeking a solution to the corrosion issue while maintaining their customer's, Boeing, specification.

APPLICATION

The landing gear was wrapped in VpCI®-126 Film and secured.

CONCLUSION

Cortec's VpCI®-126 was implemented to protect parts during processing, surface treatments, and transportation. Customer is pleased that all parts are corrosion free.
