

# CASE HISTORY

## Croatian Overpass Preservation

### CORTEC® REPRESENTATIVE

CorteCros Ltd.

### LOCATION

Osijek, Croatia

### PRODUCTS

MCI®-2020 Powder

MCI® Architectural Coating Gray RAL 7035

### PROBLEM

The customer required protection to prevent against future corrosion and to create a better appearance of the overpass.

### APPLICATION

The concrete surface was water blasted to remove dirt, oil, and grease. Once dry, MCI®-2020 Powder was applied by brush to the surface and allowed to dry for 24 hours. Then MCI® Architectural Coating RAL 7035 (Gray) was applied as additional corrosion protection and a more appealing appearance within the landscape.

### CONCLUSION

Cortec® provided an innovative solution to protect the overpass against future corrosion and provided an additional protective coating that offered a more natural look.
