

Cortec has received notification from NACE International two of its products have been selected as nominees for the first ever "MP Reader's Choice Corrosion Innovation of the Year Awards". A total of (64) products have been nominated and (10) will be selected for the Corrosion Innovation of the Year. Please review the two Cortec product summaries below, then follow the proceeding instructions to vote for Cortec and our innovative products if you think they deserve the award.

We would really appreciate your support!! Voting ends February 15, 2012.

Visit us at "NACE Corrosion 2012" in Booth #1207.

Please take a few moments to click on the link below, and follow these basic instructions:

[Take Me to the Voting Page >>](#)

Click on the "VOTE" button.

Scroll to the bottom of the Nominees web page to the voting section. (It is not necessary to pick 10 choices.)

From the first drop down list select "CorrBlock Slow Release VCI for Cooling and Wastewater Systems" as your first choice.

From the second drop down list select "Cortec CorroLogic™ VpCI® Gel for Pipeline Casings" as your second choice.

Scroll to the foot of the web page and hit the submit button. That's it!

Thanks again for your support of Cortec's industry leading focus on innovation.

Please Note: Multiple voting will disqualify your vote.
