RE: C436 Cortec Corporation
 St. Paul, MN 55110, U.SA
 17/09/03 p3 VpCI-111 Emitter

This is in reference to your letter dated September 3, 2003, concerning the aforementioned closed space corrosion inhibitor for which you have requested acceptance for use in federally registered food establishments.

Based on the present available information, no objection will be taken to the chemical composition of the closed space corrosion inhibitor for electrical and electronic boxes in food plants; with the understanding that the corrosion inhibitor will not come in contact with food products during its use and all precautions are to be taken to avoid food contamination during use and storage.

This acceptance is not to be misconstrued as an endorsement for this or similar corrosion inhibitors, and their use in Registered Establishments will depend upon their continued acceptability to all concerned.

Should any changes occur in the chemical formulation of the aforementioned corrosion inhibitors, then this acceptance will be considered NULL and VOID.

Yours truly,

J.J. Donald
Technical Program Officer
