Subject: New Product Evaluation Committee Action on:
MCI 2005 NS, 2006 NS Series by Cortec Corporation
Assigned # NP-02-1523.

Dear Mr. Estes:

The New Product Evaluation Committee considered the subject product at its April 11, 2002 meeting and agreed to assign MCI 2005 NS, 2006 NS Series, "Approved for Usage" status as a 'Corrosion Inhibiting Admixture for Concrete' type product.

Usage of products which have been evaluated and approved by the committee is encouraged. However, approval does not infer that products will be, or must be, used by Department forces or that the products will be actively promoted by the committee.

We appreciate your interest in marketing products in North Carolina. Please do not hesitate to inform us of other products that may benefit our Department. If you have any questions, please feel free to contact me at (919) 250-4128.

Sincerely,
