

Cortec® Vapor phase Corrosion Inhibitors (VpCI™) – 3-phase protection for liquid, interphase, and vapor contact.

VpCI™ protected mild steel panel

Unprotected mild steel panel

Easily add VpCI 3-phase, environmentally friendly Protection

Cortec® Patented VpCI™ Technology gives you the building blocks to stop corrosion during system operation and shut-down/lay-up. You can easily add Cortec's VpCI™ as liquid or powder to your current treatment program. They're ideal for both closed and open loop systems, providing a complete corrosion inhibitor multi-metal protection. An easy way to move to the new generation of water treatment, Cortec's VpCI™ Technology replaces nitrites, amines, phosphonates, azoles, and other corrosion inhibitors. VpCIs are completely water-soluble, easy to formulate and stable in wide pH and water hardness ranges. For details, please call or visit:
