

# HERE TODAY, GONE TOMORROW...?

Cracked Beam Testing of Admixtures

## Service Life's Too Short?

Not with Cortec<sup>®</sup> Migrating Corrosion Inhibitors (MCI<sup>®</sup>)! Available admixtures, surface applied, and specialty materials are environmentally friendly and easy to use whether building new or doing repairs. MCI<sup>®</sup> significantly increases durability of structures, reducing service life costs. Our sugar beet based admixtures have shown reduced corrosion rates (up to 80%) in cracked areas exposed to salt. For more information, please call or visit:
