- Control
- Aminoalcohol
- MCI® 2020 Amine Carboxylate

Cortec® Migratory Corrosion Inhibitors MCI® can reduce corrosion rates as much as 80% for concrete structures. Fast, low cost QAC testing shows that surface applied, protective MCI® can migrate as much as 3-4 inches in 28 days. It lets you start today to put extra life into concrete structures, buildings, bridges and parking decks. Utilizing MCI® restoration techniques can extend structural durability for many years.
