

# 100% Biodegradable

# 70 EcoWorks®

## Replacement for Plastic and Polyethylene

### Up to 70% Bio-based With American Renewable Resources

From thick rigid plastic cards to flexible protective wrap, EcoWorks® 70 by Cortec® Research Chemists offers universal, biodegradable replacement to traditional plastic and polyethylene films. This patent pending breakthrough meets ASTM D6400 and DIN V 54 900. EcoWorks® 70 does not contain polyethylene or starch but relies heavily on renewable, bio-based polyester from corn. 100% biodegradable, it turns into water and carbon dioxide in commercial composting.
