

# Lubricant and Grease Formulated Combat Ready

**Add Corrosion Protection  
at 3 Levels: Surface, Inter-  
phase and Vapor Phase.**

Cortec® Patented VpCI™ Technology gives you the building blocks to stop corrosive attack and meet MIL PRF 16173D, Grade 2 requirements. These high powered additives and products boost the effectiveness of mineral and synthetic oils to stop corrosion with an environmentally friendly formulation that is low in toxicity and efficient to use. Excellent lubricity and anti-wear protection with high thermal stability are additional benefits with Cortec's corrosion prevention systems. Ferrous and non-ferrous metal systems receive self-replenishing protection at three levels, during both operation and shutdown. Your equipment is combat ready at a moment's notice. For details:
