

Protect vital circuitry against Corrosion

Protect all the metals in your electrical and electronic equipment against corrosion – for up to two years. Industrial, tropical, and marine climates are no match for Cortec emitters. Install in just seconds with no monitoring or maintenance later. They conform to military and many major manufacturer specs.

Corrosion problem? Take a few Pills.

Cor-Pak® tablets pack a powerful corrosion inhibitor to protect metals. Drop a few tablets into your bag, box, or package to protect parts against rust for up to 18 months. Even protects from salt water during overseas transport. Eliminates conventional, expensive methods of applying and removing coatings.

Simple to apply Removes rust easily

Mild on Everything Except Rust

This biodegradable rust remover won't harm paint, plastic, wood, textiles or rubber. Just rust. Odorless and completely organic, you can use it just about anywhere: equipment, tools, locks, automotive, marine and farm equipment. Liquid or gel for indoor and outdoor applications. For complete facts call: 1-800-4-CORTEC

Super Cool - Super Lube Cutting Fluid. Longer Life - for Tools and People.

EcoLine® Cutting Fluid provides super cooling and lubricity without the cancer causing combination of nitrates and amines from old technology cutting fluids. Fully biodegradable, this soy-based, water dilutable concentrate prevents welding of metals and promotes longer life for tools and for people.

- Environmentally and people friendly
- Rapid cooling
- Low to no smoke
- Excellent anti-wear
- Excellent lubricity
- Economical
- Patented VpCI® corrosion protection

EcoLine Cutting Fluid is ideal for heavy-duty cutting, milling, turning, and drilling.

Soy-based concentrate does not contain cancer causing nitrites and amines.

New bio-based Eco Film™ for global Recycling

Eco Film™ provides a durable exterior for short term shipping and storage. The 100% biodegradable and compostable film passed the bio-standard ASTM 5338 for degradation in a compost. There's no transport of toxins that leach into ground water and plant life. America's answer for export shipments to Europe and the Pacific Rim, Eco Film breaks the hazardous chain of toxic production and disposal.

In a compost, Eco Film™ degrades in just 6 weeks!

New air-powered organic oil-no aerosol After-taste

EcoAir® VpCI-324 is the new multi-purpose oil and lubricant you can use just about anywhere, anytime. So effective, it received USDA H1 food rating approval. Innovative air-powered spray application replaces traditional petroleum based flammable propellant gases. No aerosols of CFCs, non-flammable. Alleviate lubricating heart burn to day.

Being a World Leader in Environmentally-Safe Corrosion Protection/Solutions has its Responsibilities
