

NEWS ALERT

Cortec® Employees Arrested!

This year, 3 Cortec® employees were charged with having big hearts and were apprehended. After a brief struggle they were transported to the MDA jail for booking and a last meal. Luckily, Cortec® and all their friends were able to raise the bail needed for their releases.

Many thanks to Anna Vignetti, Angie McGillvray, and Tamara Scales for their very successful participation in the MDA Lock-Up events held in White Bear Lake and Eau Claire in February. With the help of all the generous people who bailed them out and Cortec® Corporations matching funds, they collected over \$4000 to help send children to MDA Summer Camp, buy wheelchairs, fund research, and a host of other MDA activities.

Every year, the Muscular Dystrophy Association sponsors the MDA Lock-Up to help raise money for "Jerry's Kids." Participants have warrants issued for their arrest and then have to raise bail (donations), before their court date and at the MDA jail event they work hard, calling friends and business associates to raise even more charitable contributions.

Once again, thanks to these 3 "jailbirds", Cortec®, and you for making this year's MDA Lock-Up the best ever!
