

NEWS ALERT

Bionetix® Porta-Treat Featured In April Issue of Pumper Magazine!

WASTE TANK TREATMENT PACKS

Porta-Treat packs from **Bionetix** contain natural and safe aerobic bacteria that digest odor-causing compounds and waste. The bacillus spores used have been shown to reduce large waste particles that settle to the bottom. The cellulose present in toilet paper is reduced to odorless carbon dioxide and water. The bacteria release extracellular enzymes to help minimize waste so the bacteria have better access. By reducing waste and odor-causing compounds, the holding tank is left fresh and clean, reducing downtime and maintenance costs. Simply toss the water-soluble pouches into the holding tank. **514/457-2914; www.bionetix-international.com.**

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001, ISO 14001, and ISO 17025 Certified.
