

Castle X Women's Launch SE G4 Jacket

PERFORMANCE-MINDED women will stay warm while turning heads on the trail with this new insulated jacket. It sports a hip asymmetrical design and comes in a variety of eye-popping color combos, including grape/Hi-Vis (shown) and hot pink/navy. The shell and removable liner both employ 3M Thinsulate Extra Warmth insulation, delivering a combined total of 210g body and 160g sleeve insulation. Cost: \$249.99. **More info:** www.castlesales.com

Bell MX-9 Adventure Snow Helmet

THIS NEW POLYCARBONATE/ABS helmet combines the cool look of a motocross-style helmet with the comfort of a full-face design. It features a dual-layer NutraFog II shield with anti-fog and anti-scratch properties, a vented two-point adjustable visor and a full-coverage breath box with an adjustable nose bridge. Available in a variety of colors, sizes XS-XXL. Cost: \$219.95 (dual shield), \$279.95 (electric shield). **More info:** www.bellhelmets.com

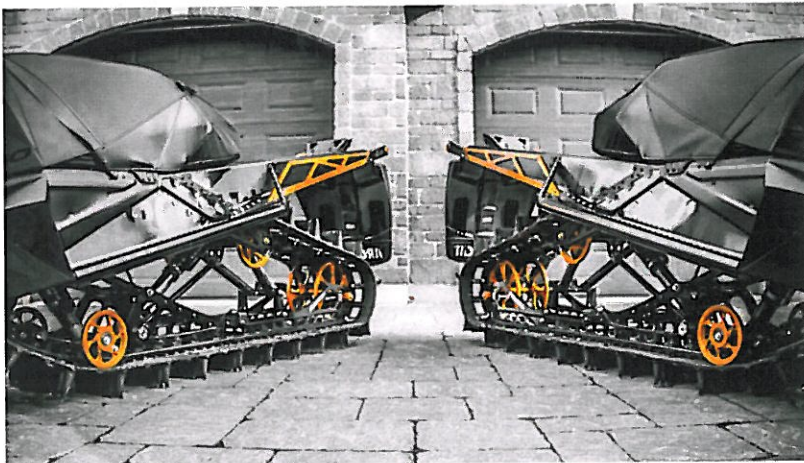

Woody's Colored Square Digger Support Plates

THERE ARE MANY ways to customize the look of your sled these days, and one way is to customize your stud support plates. Woody's now offers high-grade aluminum plates in powder-coated red, orange, yellow, green, blue, black or white. Whether you race or trail ride, your track will get better hookup AND show your true colors. Cost: \$48.95 (48-piece package). **More info:** www.woodystraction.com

Bull Frog Lubricant & Rust Blocker

WE'VE USED THIS product on one of AmSnow's tow vehicles, which has folding step sides that often bind on rust and debris in the hinges. Since we started using Bull Frog earlier this year, we've had no problems. It's also great for lubricating trailer hitch locks, squeaky trailer door pivot points and other moving parts. Cost: \$129.46 (case of 12). **More info:** www.bull-frog.com

Big Wheels Kit from Itek Industries

REPLACING STOCK PLASTIC wheels with anodized aluminum reduces friction on the track and increases the sled's top speed. This kit increases the diameter of the rear wheels by 1.5 inches, resulting in HP gain and better performance in backcountry powder. It includes a deax axle, two wheels (9 colors available) and required hardware for installation. Cost: \$269.33 (8.75-inch diameter for Polaris); \$299.66 (9.5-inch diameter for Arctic Cat, Ski-Doo or Yamaha). **More info:** www.itekindustries.ca

FLY Racing Marker Boot

WHETHER YOU ARE attacking the trails, boondocking a hillside, or eating up the gnarliest climb, your feet will stay warm and dry with the Marker Boot. It has an innovative breathable and waterproof Hydroguard membrane, as well as the 600g thermal insulation that is rated for -40 F. A slip-resistant rubber sole, reinforced toe and heel, and leather upper exterior offer extra longevity. Available in black or black/Hi-Vis. Cost: \$169.95. **More info:** www.flyracing.com
