

NEWS ALERT

Cortec® Middle East Continues To Strengthen Its Partnerships With Local Academic Institutions Through The Cortec® Internship Program!

CORTEC®
MIDDLE EAST
Environmentally Safe VpCI®/MCI® Technologies

September saw Cortec® Middle East bid farewell to Christian Momah and Sonam Ludhani from the American University of Sharjah as they return to class after a rewarding summer internship at Cortec® Middle East in Dubai. The placement saw both chemical engineering students work alongside Business Development Manager Khalil Abed on a research project investigating the relationship between cathodic protection and Vapour phase Corrosion Inhibitors (VpCI's) on Above Ground Storage Tanks. Managing Director for Cortec® Middle East, Usama Jacir, commented on the students "It is fantastic to see such enthusiasm from the next generation of engineers, it was a pleasure to welcome both Sunam and Christian into the Cortec® family this summer". Partnerships with leading academic institutions including the American University of Dubai and American University of Sharjah play a key role in the local research conducted by Cortec® to develop solutions for the regional corrosion challenges.

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001, ISO 14001, and ISO 17025 Certified.
