Cortec® Celebrates Another Record-Breaking Year and Recognizes Employee Accomplishments!

Cortec® Corporation celebrated its 10th record-breaking year in a row with a special Chairman's Employee Appreciation dinner November 19th, 2016, near Cortec's Minnesota headquarters. The evening brought together a diverse crowd of production, sales, office, and lab employees for a time of conversation, excellent food, reflection, and renewed vision.

Cliff Cracauer, Cortec® VP of Sales, addressed the audience, saying that the Cortec® team will be able to accomplish good things as they move forward working together. The sky is no longer the limit—the universe is!

Chairman Boris Miksic, President and Founder of Cortec® Corporation, had the same thought, but expanded on Cracauer's statement by commenting that, actually, Cortec® has already reached the universe by its involvement in corrosion control for the space shuttle program!

Miksic reflected on how Cortec® is the world's largest privately owned corrosion inhibitor company and continues to grow with new products, new patents, and new employees. Looking ahead he noted that Cortec® will be starting a number of development projects, including the expansion of a recycling program at the Cortec® Advanced Film Division, stimulated by great interest in VpCI® film with higher recycled content.

The evening was also an opportunity for Cortec® to recognize and express gratitude for the impact of nine employees nominated for Excellence Awards. These new awards go to workers who have made significant contributions in terms of quality, safety, productivity, and/or leadership. This year, recognition went to individuals from various Cortec® locations in the U.S. and Croatia:

- Tim Bliss – Production Manager, Cortec® Advanced Films (Cambridge, Minnesota, USA)
- Ivana Radic Borsic – VP of Sales, Europe (Zagreb, Croatia)
- Bob Boyle – VP of Sales, Integrated Solutions and Global Services (Saint Paul, Minnesota, USA)
- Dan Hebeisen – Training Specialist, Cortec® Advanced Films (Cambridge, Minnesota, USA)
- Keith Hirsch – Maintenance Project Specialist, Cortec® Advanced Films (Cambridge, Minnesota, USA)
- Angie McGillivray – VP of Finance & Controller (Saint Paul, Minnesota, USA)
- Ivan Rogan – Director, CorteCros® (Zagreb, Croatia)
- Dean Sorensen – Maintenance Technician I, Cortec® Coated Products (Eau Claire, Wisconsin, USA)
- Dijana Zrinski – General Manager, EcoCortec® (Beli Manastir, Croatia)

Cortec® is grateful for the important contributions these employees have made to help Cortec® become a better company.

Cortec® looks forward to making 2017 another record-breaking year by achieving even greater corrosion inhibiting success for employees, distributors, and customers alike!

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001, ISO 14001, and ISO 17025 Certified.
