PRESS RELEASE

Cortec's Daughter Company Announces New Brochure: High-Tech Integrated Solutions for Corrosion Protection!

Cortec® Corporation has released a new brochure covering full range of services of its European subsidiary CorteCros®, Cortec®'s general representative for Croatia and South Eastern Europe. In the past member of INA Group, CorteCros® today is fully owned by Cortec® Corporation and included in the new Cortec® business strategy. The company provides integrated solutions and full technical support for Cortec's products and services. CorteCros® will secure engineering, consulting as well as application and selection of products for corrosion prevention and collection of spilt oil derivatives and chemicals. Utilizing latest technology the company provides integrated corrosion protection solutions that enable clients significant cost savings and are safe for the environment. The brochure highlights companies' full range of products and services.

CorteCros® Brochure

CorteCros® is part of Cortec's new European logistics network and fully incorporated in corporate business strategy. The company has significant expertise in oil and gas and military industries.

CorteCros's team has over 18 years of protection drilling and workover equipment experience. It's mission is to offer technical and logistics support to distribution network of Cortec® Corporation in Europe with resources such as Zagreb office and distribution center in coastal town of Split, Croatia. Split is the main European location for storage of CorteCros® products as well as products of Cortec's daughter company Bionetix International, which specializes in environmental biotechnology. The company provides solutions for all industries with extensive experience in military and oil and gas industries as well as package preservation. CorteCros® is focused on providing each customer with optimum corrosion control solutions to meet their needs.

providing each customer with optimum corrosion control solutions to meet their needs.

CorteCros® Presence

Crude Oil and Refinery

CorteCros® has over 18 years of protection drilling and workover equipment experience. We are applying corrosion protection products using different range of Cortec® Corporation products:

- Drilling platforms
- Exploration platforms
- Drilling and workover equipment for storage indoor and outdoor
- Pipe line for transport crude oil and gas
- Water treatment

Military

New strategies of corrosion prevention in military applications are continually being developed and evaluated for effective corrosion control. CorteCros® has valuable extensive experience in the field of military applications and offers latest technology solutions. The company provides economical, effective corrosion prevention solutions for preservation of weaponry, tanks, military vehicles and other military equipment.

5
