PRODUCT RELEASE

Bionetix® EN-Z-KLEAN: A Safe and Natural Choice For Greasy Stain Removal!

It is perfectly natural for uniforms and linens to become heavily soiled and stained in greasy environments such as repair garages and restaurants. Now, it is also natural to cleanse away these stains through the biological enzyme power of Bionetix® EN-Z-KLEAN Laundry Detergent Concentrate!

EN-Z-KLEAN is a professional grade commercial laundry detergent that offers outstanding cleaning and stain removal power at any temperature range, using natural ingredients that do not harm fabrics or hands.

The power of EN-Z-KLEAN lies in its natural lipase enzyme that targets and digests fat and oil residues even at extreme temperatures. EN-Z-KLEAN is therefore ideal for heavy-duty industrial

and commercial laundry applications where heavily stained and greasy laundry must be cleaned in very hot water.

Often, enzymes do not hold up to extreme heat, but the hardness of the EN-Z-KLEAN lipase enzyme provides outstanding cleaning and stain removal in the form of a detergent that is biodegradable, environmentally friendly, phosphate-free, and safe for septic systems.

Other EN-Z-KLEAN benefits:

- Non-toxic
- Tough on industrial grease
- Great janitorial, industrial, and commercial cleaner

At the end of a hard-working, grease-filled day, Bionetix® EN-Z-KLEAN makes outstanding cleaning and stain removal a safe and natural occurrence!

EN-Z-KLEAN comes as a dark blue liquid available in 4x4 L, 20.37 kg, 208.82 kg, and custom packaging. It has a bulk density of 1.01-1.05 g/cm³ with a pH of 8.0-9.5.

PRODUCT DESCRIPTION
EN-Z-KLEAN Laundry Detergent Concentrate is an enzyme-based liquid detergent for industrial laundry use at any temperature range. It is produced with natural ingredients which do not harm fabric or metals. The detergent is biodegradable, environmentally friendly, phosphate-free, and safe for septic systems.

APPLICATIONS
Very useful in washing uniforms, linens, and other soiled fabrics used in greasy environments such as major garages and restaurants.
Use 2 cups (500ml) for large load and 1 cup (250ml) for smaller loads. For tough stains, pour a small quantity directly on stain and rub in before washing. Always check labels for special instructions.

OUTSTANDING CLEANING AND STAIN REMOVAL POWER AT ANY TEMPERATURE RANGE

- EN-Z-KLEAN PROFESSIONAL-GRADE COMMERCIAL LIQUID DETERGENT
- Phosphate-free
- Biodegradable
- Non-toxic
- Tough on industrial grease
- Great janitorial, industrial and commercial cleaner
