PRESS RELEASE

EcoCortec® - First Croatian Bioplastics Plant Announces ISO 9001 and ISO 50001 Certification!

We are very proud to announce that EcoCortec®, the most advanced manufacturer of bioplastic materials in Europe has successfully finalized ISO 9001 and ISO 50001 certification audit. After several months of preparations and finalization tasks the plant is now in the process of certification.

These certificates will enable optimizing EcoCortec®'s operations and enhance plant's competitiveness even more to access global markets. Quality management system will ensure that our operations are running at maximum efficiency, safety and quality.

Certification audit was conducted by TÜV Croatia, member of world renowned TÜV NORD group. TÜV NORD is a global leader in technology services with aim of accompanying its clients with prudence and foresight into the future.

ISO 9001 certificate is quality management system designed to help organizations ensure that they meet the needs of customers and other stakeholders while meeting statutory and regulatory requirements related to a product while dealing with the fundamentals of quality management system.

EcoCortec® specializes in manufacturing Cortec® Corporation's innovative Vapor phase Corrosion Inhibitor (VpCI®) films that have become a gold standard throughout the world in the corrosion protection business. The plant's products are exported to all European countries as well as Asia

ISO 50001 is energy management certificate based on the management system model of continual improvement and enables best energy efficiency. The standard aims to help organizations continually reduce their energy use, and therefore their energy costs and their greenhouse gas emissions.

Meeting the requirements of these standards will provide EcoCortec® with excellent quality management systems and the foundation to better customer satisfaction, staff motivation and continual improvement, continuing EcoCortec®'s dedication to excellence.
