

EcoCortec® - first croatian Bioplastics plant™

EcoCortec®

First Croatian Bioplastics Plant

World's only producer of patented anticorrosion films and bags that are both biodegradable and biobased. Eco-Corr® ESD films received Worldstar Award by World Packaging Organization (WPO) for best packaging product for electronics, Frost and Sullivan's Technology Innovation of the Year Award in the field of specialty plastic films and CROPAC International Award for best ecologically designed process for production of packaging materials.

EcoOcean® is the only certified marine degradable plastic film in Europe that was tested and approved by the MarineClean consortium.

EcoCortec® d.o.o. is the biggest producer of high quality VCI/VpCI anticorrosion films and bags in Europe and second largest in the world.

All Eco Film® and Eco Works® formulations are certified compostable per ASTM D 6400 by BPI and DIN Certco.
