

NEWS ALERT

Cortec's EcoLine® Food Machinery Lubricating Grease Featured In June Issue of Industrial Equipment News!

Biobased Lubricant is safe for food processing equipment

Certified biobased, corrosion-inhibiting EcoLine Food Machinery Lubricating Grease is specifically formulated to meet demands of food and meat processing plants. Formulated with renewable American-grown natural seed oil, it protects ferrous and colored metals while biodegradable formula reduces environment damage. It conforms to USDA H-2 criteria and USFDA regulations 21CFR.

Combining FDA-approved corrosion inhibitors and specially formulated aluminum-based thickener, lubricating grease delivers contact and vapor phase corrosion protection, reduces friction and wear, and has high flash point for increased safety. It is recommended for both operating and mothballed equipment. **Cortec Corp.:** 800-426-7832
