

NEWS ALERT

Cortec® Unveils New and Improved MCI® Website.

Cortec® Corporation has unveiled its new and improved Migratory Corrosion Inhibitor (MCI®) website -- www.cortecmci.com targeted for the construction industries. This enhanced site provides resources that help our customers save time and money by preventing and treating corrosion.

The updated and added content includes: new products, product data sheets, MSDS', specifications, and reports. Also offered is detailed information regarding select Department of Transportation (DOT) approvals and U.S. Green Building Council LEED Information. Visitors can read and download published articles, papers, presentations, and technical information.

The improved website offers expanded tools such as Adsearch+Spec that allows Architects, Engineers, Contractors, and Developers to create specifications and schedules using Cortec® MCI® products. Cortec® provides solutions to perfectly fit your unique operation and environment.
