

NEWS ALERT

Cortec® CorPak® Tablets Featured in January/February Issue of Machinery Lubrications!

CORROSION INHIBITOR.....

Cor-Pak Tablets offer a preventative method of protecting metals from corrosion. Using Vapor phase Corrosion Inhibitor (VpCI) technology, the pills provide more than two years of multi-metal corrosion protection. Just drop a few tablets into a bag, box or package. No spraying, wiping, dipping, surface preparation or regeneration is required. Each pill will protect up to 7.1 liters (0.25 cubic feet) of enclosed space. The tablets are nitrite-, phosphate- and silicate-free and are easily inserted into packaging by manual or automated systems.
