

PRESS RELEASE

Beli Manastir, June 13th 2011.

EcoCortec proud to become part of European Union

Croatia has officially been confirmed to become 28th member of European Union by far the strongest economy in the world. This creates enormous opportunity for EcoCortec and our European distributors to grow our market share. EcoCortec is the only producer of VpCI® films in European Union, our non-EU competitors are Zerust/Excor, Daubert, Safepack, Grofit, Magna and our EU competitors do not have own VCI film production in EU: Metpro, Brangs und Heinrich and Propack.

EcoCortec is the only producer of VpCI® films and bags that has the state of the art production plant, logistics center, laboratory,

marketing and customer support center and distribution network that is European Union based.

Location of our EU facility in Beli Manastir, Croatia, EU has been carefully chosen as it is located at the crossroads of East and West Europe. Recently finished Corridor C-5 that our plant is adjacent to is the truck superhighway of Europe, starting in Poland and ending in Turkey.

EcoCortec/Cortec family is proud to become a part of European Union business community.
