Rust Remover

Vp-Cl®-426 Descaler/Rust Remover enhanced with Nano-VpCl® is a water-based, heavy duty rust remover available in the form of liquid, powder and gel. It is designed to remove corrosion, scale and naturally-occurring oxides from iron, carbon and stainless steel, copper, aluminum, magnesium and their alloys. This non-toxic, nitrate-free rust remover stays in place on vertical and difficult-to-treat surfaces where corrosion is heavy. — Cortec Corporation, 800/426-7832, www.cortecvci.com

Bioremediation Enhancement

MICRO 14 is a special blend of 14 natural ingredients providing various sources of minerals, vitamins, and microbial growth elements. This safe and economical alternative is beneficial in stimulating activity in nutrient deficient soils, groundwater, or wastewater. The formulation will enhance the microbial degradation of organic materials in order to provide superior bioremediation. — Bionetix International, 514/457-2914, www.bionetix-international.com Circle 48 on Card or <http://pen.hotims.com/60890-48>

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCl® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001, ISO 14001, and ISO 17025 Certified.
