**PRESS RELEASE**

**Bionetix® All Purpose Odor Eliminator –  
Clears The Stink Faster Than You Think!**

Bionetix® All Purpose Odor Eliminator has specially blended natural active ingredients that are capable of neutralizing a wide range of malodorous molecules. Bad smells are detected from foul particles that are volatile and dispersed in the air - replace these unpleasant odors with a fresh scent using the power of nature. The ingredient in All Purpose Odor Eliminator forms a complex with odor causing organic compounds, which yields a lower concentration of these molecules, destroying the toughest odors so they are gone for good.

All Purpose Odor Eliminator utilizes the latest technology of microbial action with a highly effective organic neutralizer for the ultimate bio-based deodorizing spray that traps odors and digests them back to nature, safely and naturally. It is formulated from a unique blend of natural and environmentally friendly ingredients specially developed to attack and destroy many

unpleasant odors, providing a powerful cleaning action. It will effectively eliminate odoriferous gases like ammonia, amines, hydrogen sulfide, thiols, mercaptans, butyric or caproic acid, and others which are emitted from smoke, mold, waste, decomposition, garbage, cooking, food, animals, sweat, urine, feces, or other organic substances.

Applications include: deodorizing spaces (cars, rooms, hotels, etc...), deodorizing fabric and textiles (carpets, curtains), or for use on hard surfaces. Simply spray onto affected areas with a compressed air sprayer or fogging equipment, or with aerosol in ready to use format. No need to evacuate the premise during application and no special equipment is required. Product is safe to leave on wet, no rinsing needed. Reapply as desired.

The features of this product

- Liquid
- Can effectively be used with or without fragrance
- Completely water soluble
- No need to add solubilizing agents
- Fragrance (Optional) Sea Breeze, Mint, Apple

Our formula is in concentrated or ready to use format, and available in 4-1gallon (15 liter) cases, 5-gallon (19 liter) pails, and 55-gallon (208 liter) metal drums.
