

NEWS ALERT

Cortec's BioClean® Spray Featured February Issue of Pollution Engineering!

"Green" Cleaning Solutions

BioClean Spray, a new addition to the company's bio-based line of products, is a blend of coconut oil phospholipids, "green" corrosion inhibitors and surfactants designed to disperse and inhibit microbiological growth. It is non-toxic, non-hazardous, biodegradable, and manufactured from renewable resources. BioClean eliminates existing microbiological contamination, as well as provides the prevention of future growth. The product is designed to clean hard surfaces (wood, metal, plastics, etc.) and provide strong corrosion protection.
