

Odor Control

By Craig Mandli

ARMAL SCENT BOX

The Scent Box from Armal incorporates a fragrance — vanilla balm, rose sensations, apple blossom, pine-wood trail or strawberry field — into the wall panels of the restroom during the manufacturing process, ensuring a pleasant scent inside. It has heavy-duty, spring-coil doors with a wind-resistant device to ensure closure when unlocked, and overlapping wall assembly for greater safety. Options include a recirculating kit with filter and freshwater flush that works in combination with the pump kit. 866/873-7796; www.armal.biz.

BIONETIX INTERNATIONAL PORTA-TREAT

Porta-Treat from Bionetix International is a quick-acting treatment that deodorizes portable restrooms and holding tanks, leaving only a fresh fragrance. It contains natural and safe bacteria that produce specific extracellular fast-acting enzymes to attack waste and its byproducts at the molecular level, degrading organic wastes. It digests odor-causing compounds and targets large waste particles that settle at the bottom of tanks. Throwing in a water-soluble pouch after emptying and cleaning the retention tank makes it easier for PROs to

keep the tank fresh by reducing substances such as cellulose in restroom paper into odorless carbon dioxide and water. The non-formaldehyde formula is safe, with no adverse effects on waste or sewage treatment plants. Pouches with exact dosage are easy to store and use with no measuring, waste or mess. 514/457-2914; www.bionetix-international.com.

CPACEX ULTRA POWRPAKS

Ultra PowrPaks for portable restrooms and holding tanks from CPACEX offer odor control and fragrance for up to seven days in extreme conditions. The additional effervescence ensures the packets will dissolve quickly and disperse evenly throughout the holding tank. They are available in five sizes to fit specific applications and climates. Use Ultra Lite in special event units or Ultra 4X in construction units, or choose the strength that works best for the application. They are biodegradable and all formulations contain nonstaining blue dye. 419/450-6208; www.cpacex.com.

DEL VEL CHEM CO. ODOR INTERCEPTOR

Biodegradable Odor Interceptor from Del Vel Chem Co. is used to neutralize and absorb odors from a variety of sources. It lasts 45 to 60 days depending on the degree of odor. The product shrinks as it absorbs odors. The heavier the odor, the faster it is used. It will shrink to about 12 percent of its initial size before it should be replaced. Once odors are under control, it will shrink at a slower rate. It is available in 1/2-, 4- and 35-pound containers. 800/689-9903; www.delvel.com.

FIVE PEAKS GLACIER BAY DROP-N-GO PACKETS

Glacier Bay Drop-N-Go Packets from Five Peaks provide the same effective odor control, fragrance and deep blue color mask as liquid odorant, with the convenience and easy inventory control of premeasured, ready-to-use pouches. A premeasured quantity of powder is packed in a water-soluble pouch, preventing waste and contact with product. Just drop a single packet into the holding tank and add water. They are packaged in a stand-sealable gusset bag, which reduces the risk of exposing the packets to moisture. They are available in three strengths — ultimate, everyday and everyday. 866/293-1502; www.fivepeaks.net.

GREEN WAY PRODUCTS BY POLYPORTABLES SUPER TUBES

Super Tubes portion-controlled deodorizer from Green Way Products by Polyportables have a built-in dosing scale to minimize waste. The scale allows the technician to quickly and easily measure the perfect amount of product for any job. Simply flip the cap to the up position, point the bottle into the holding tank or bucket and squeeze. With the measurement system built into the bottle, there's no guesswork and no waste. There is no lost inventory due to water damage or accidental activation. Activation is immediate regardless of brine solution or cold weather application. The easy-to-carry 1-liter bottle provides convenient dosing every application. 800/241-7951; www.polyportables.com.
