## Cortec® Attends RAILCORR 2014 Seminar!

Cortec® participated in 'EXPO FERROVIARIA 2014' held in Turin, Italy (April 1-3, 2014). This seminar was organized by International Protective Coatings Magazine (IPCM) and specifically dedicated to corrosion prevention and maintenance in the railways industry.

Cortec® and Carte Dozio participated in the technical exhibition and Dario Dell'Orto presented Cortec's VpCI® technology in four main application areas:

- Electrical and Electronics
- Surface Preparation: rust removers, cleaners, and degreasers
- Maintenance: rust preventatives, permanent coatings, and lubricants
- Parts packaging

40 people attended the seminar, giving Cortec® the opportunity to illustrate and explain the advantages and benefits of VpCI® technology in the railway industry. There was also an opportunity to network with other vendors.

An article summarizing the content of Cortec's presentation will be published by IPCM in their upcoming publication.

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001, ISO 14001, and ISO 17025 Certified.
