To: Whom It May Concern

Re: REACH Statement

Cortec Corporation is taking active steps to ensure that its products continue to be available within Europe and that you will not be faced with the risk of loss of key materials. We intend to be compliant in order to sustain current substances as well as new substances in the European marketplace.

To this end we have appointed as our only representative:

Practical Chemical Compliance Europe Ltd. (PCC Europe)

Jerry Wray – Managing Director.

6 Lemont Road

Mansfield Woodhouse

Mansfield

Nottinghamshire

UK

Phone: +44 (0) 1623 656 103

Fax: +44(0) 1623 662852

Email: reach@pcceurope.eu

who will be taking care of the pre-registration requirements under REACH for Cortec Corporation.

We have collated all the substances and tonnages we supply into Europe and are investing in the REACH implementation process. Pre-registration will begin on 1st June 2008.

We intend to fulfil the registration obligations of our substances and to meet the tonnage deadlines.

Although generic exposure scenarios are being developed we expect, as the process evolves, that we may need to contact you for further information.

We will continue to work hand in hand with you to provide environmentally friendly corrosion protection throughout the implementation of REACH.

Sincerely,
THE CORTEC CORPORATION

Christophe Chandler
