PRESS RELEASE

Cortec® New Shrink Films Brochure Now Available!

VpCI®-126 Blue Multi-Metal Shrink Film, Patented

This latest Cortec® brochure highlights our Vapor phase Corrosion Inhibitor (VpCI®) Shrink Films; the most advanced corrosion inhibiting shrink films available on the market today! Cortec® films are trusted globally for transit and equipment preservation. This brochure outlines Cortec's heavy duty shrink films that are coextruded on highly specialized, computer controlled equipment; and formulated from a unique blend of state-of-the-art polyethylene resins which features Cortec's VpCI® and provides a top-notch universal multi-metal protection system.

Cortec® VpCI® shrink films offer an economical alternative to wooden crating, aluminum foils, vacuum packaging, and desiccants. Protective packaging is a significant consideration when you're dealing with shrink film, and Cortec's shrink films offer you everything you've been looking for:

- Fully recyclable
- Improved stability
- Superior strength and stretch characteristics
- Are cost-effective
- Tamper resistance
- More efficient handling and storage
- Dust and moisture protection

Fire retardant Milcorr® Shrink Film is the only shrink film currently on the market that offers 5 years outdoor protection against corrosion, UV rays, wind, sand, rain, snow, and ice.

Cortec® VpCI® shrink films conform to military specification MIL-B-22019D, NACE Standards RP0487-2000, and TMO-2008.

You can find out more information on film features, qualities, and characteristics in this brochure at the link below.
