

Cor-Pak® VpCI® Static Dissipative Bubbles Film Available at EcoCortec® Warehouse!

EcoCortec® team is excited to inform you that multifunctional Cor-Pak® VpCI® Static Dissipative Bubble Film rolls are now available at EcoCortec's warehouse. This film of unmatched quality is the only bubble film in Europe produced with latest Nano-VpCI® technology providing a unique combination of cushioning and multimetal corrosion protection. Cor-Pak film is available in stock in standard size rolls 1000mm x 100m while custom sizes are available upon request. The film will soon be available at Cortec's warehouse as well.

This modern, clean and flexible packaging material combines volatile corrosion inhibitors with cushioning packaging bubbles to provide protection for most sensitive or delicate components. Cor-Pak® VpCI® Static Dissipative Bubble Film is suitable for various packaging applications - from

surface protection and interleaving up to creation of protective cushions and empty space packing.

Using Nano-VpCI® technology, the bubbles protect a variety of metals including carbon steel, aluminum, copper, brass, silver, and stainless steel without leaving residue on packaged items.

Corrosion of complex equipment is an increasingly serious problem for many manufacturers, causing expensive failures. Environmentally safe Cor-Pak® VpCI® Static Dissipative Bubble Film offers a simple and safe to use recyclable bubble wrap packaging solution that will cut costs.

Advantages of Cor-Pak® VpCI® Static Dissipative Bubbles Film

- Simple, safe to use
- Provides a unique combination of cushioning and corrosion protection
- Provides multi-metal protection through Patented VpCI® Technology - VpCI® vapor does not interfere with subsequent processing (i.e. painting, welding, cleaning, soldering, etc.)
- Has no adverse effects on plastic (lexane), optics elastomers, and other non-metallics.
- Protects against triboelectric charge generation making them excellent packaging solution for electronic components.

Cor-Pak® VpCI® Static Dissipative Bubble Film conforms to NACE Standard TM0208-2008 “Laboratory Test to Evaluate the Vapor-Inhibiting Ability of Volatile Corrosion Inhibitor Materials for Temporary Protection of Ferrous Metal Surfaces”, conforms to MilSpecs: MIL-PRF-81705D for ESD and MIL-PRF-22019D for VIA, and is REACH and RoHS compliant.
