

BEWARE OF COPYCATS!

When it comes to corrosion inhibiting packaging, Cortec's® VpCI®-126 is the best anticorrosion selling film in the world!

So, think twice before you buy a cheap imitation. Remember, it's your product and reputation on the line.

CORTEC QUALITY GIVES YOU	WITH BRAND X YOU GET
A complete line of genuine VpCI products. The most complete system in industry giving you maximum corrosion protection in packaging applications.	Random products with limited corrosion protection ability.
Non-toxic, FDA approved, nitrite free, ISO 14001 certified.	Toxic, heavy nitrite loading.
ISO 9001 certified to meet standard industry and military tests worldwide.	Do not meet standard corrosion inhibiting tests for films.
Largest Distributor Network, worldwide availability	Reverse engineering, slow delivery, questionable quality. Is it worth the risk?
Best Technical Support: No one knows our products better than the Cortec Team!	Guess work. Copycats. No investment in their customers.
Cutting Edge Solutions: For 25 years Cortec has been leading the industry with new solutions which save our customers money every day.	Old ideas and old technology. Always a step or two behind! Do you really want to be tied to a follower?
Cortec Reputation: We became the market leader through hard work, dedication and relentless customer service. Call us- we'll prove it to you!	Some things just can't be copied. Don't find out the hard way.
