**VCI-129**

**DESCRIPTION**
VCI-129 is a high-density polyethylene (HDPE) film extruded with vapor corrosion inhibitors (VCIs). The VCIs volatilize from the film into the air within the package, condensing on all exposed metal surfaces, even recessed areas. Once the VCIs have condensed, they form a thin molecular protective layer that prevents corrosion. VCIs eliminate the need for messy and hazardous materials such as oils and other coatings.

The use of HDPE has many advantages. HDPE has substantially better barrier properties than VCI/VPI impregnated paper. The result is a film that is better at keeping contaminants, such as moisture, sulfur dioxide and hydrogen sulfide, outside of the package, while retaining the VCI on the inside.

**FEATURES**
- Has exceptionally high barrier characteristics and will maintain a vacuum for extended periods of time
- In some cases, it is a replacement for expensive packages and materials such as MIL-B-131 aluminum foil and polyester films
- HDPE effectively allows the film to be used in higher temperatures and more humid climates than LDPE
- Exceptional seal strength
- Has better scratch and abrasion resistance than low density film

- Provides multimetal/corrosion protection
- Can be used in foam-in-place applications
- Can be made into rolls, sheets and most styles of bags, covers, liners or pouches, including such specialties as bags on a roll and zip-lock bags
- Available in gauges from 1 to 8 mils (25-200 microns)*
- Available in clear or blue film

*2 mils has similar strength values as 6 mils of LDPE

**METALS PROTECTED**
- Carbon steel
- Stainless steel
- Copper and copper alloys
- Brass
- Aluminum and aluminum alloys
- Cast iron

**LIMITED WARRANTY**

All statements, technical information and recommendations contained herein are based on tests Cortec Corporation believes to be reliable, but the accuracy or completeness thereof is not guaranteed. Cortec Corporation warrants Cortec products will be free from defects when shipped to customer. Cortec Corporation's obligation under this warranty shall be limited to replacement of product that proves to be defective. To obtain replacement product under this warranty, the customer must notify Cortec Corporation of the claimed defect within six months after shipment of product to customer. All freight charges for replacement products shall be paid by customer.

Cortec Corporation shall have no liability for any injury, loss or damage arising out of the use of or the inability to use the products. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith. No representation or recommendation not contained herein shall have any force or effect unless in a written document signed by an officer of Cortec Corporation.

The foregoing warranty is exclusive and in lieu of all other warranties, express, implied or statutory, including without limitation any implied warranty of merchantability or of fitness for a particular purpose. In no case shall Cortec Corporation be liable for incidental or consequential damages.
