

HIGH PERFORMANCE VpCI® PACKAGING

Cor-Pak® VpCI® Masking Film

PRODUCT DESCRIPTION

Cor-Pak® VpCI® Masking Film protects metal through both vapor action and contact corrosion inhibition. The VpCI®s vaporize and deposit on all metal surfaces, reaching even recesses or indentations on the product. Cor-Pak® VpCI® Masking Film utilizes controlled adhesion properties to stick firmly to smooth surfaces, and leaves no residue upon removal. The film itself is produced from the highest quality LLDPE resin, giving outstanding mask protection. The pressure sensitive adhesive is formulated with VpCI®s (Vapor phase Corrosion Inhibitor) for long-lasting protection against corrosion.

FEATURES

- Protects ferrous and non-ferrous metals.
- Transparent and puncture resistant.
- Provides continuous protection up to 24 months.
- Vapor phase action protects recessed and inaccessible surfaces.
- Light weight for low shipping costs.
- Adheres and releases from most smooth surfaces.

METALS PROTECTED

- Carbon Steel
- Solder
- Stainless steel
- Aluminum
- Iron
- Silver
- Brass
- Nickel
- Copper

Note: For metals not specifically listed above, please contact Cortec for information regarding their protection.

METHOD OF APPLICATION

Cor-Pak® VpCI® Masking Film works well when applied by hand or in machine-aided operations.

When applied by hand, the film can be trimmed to size, affixed to the surface to be protected, and smoothed with a rubber roller or a squeegee.

A variety of automatic and semi-automatic machines are available for the application of masking film. Cor-Pak® VpCI® Masking Film is engineered with adhesion and unwind characteristics to be suitable for such machines and the wide variety of masking applications.

CORROSION TESTING

German VIA Test

(German Military Std. TL-8135-002) : Pass

Cortec Razor Blade Test : Pass

PACKAGING AND STORAGE

Cor-Pak® VpCI® Masking Film is available in various gauges, widths and lengths to fit your exact requirements. The product should be stored indoors, sealed in the original packaging and in temperatures not exceeding 85°F (29°C). Keep product from moisture. The shelf life is 24 months, when stored at its original sealed packaging.
