

# **CorShield® VpCI®-147 HP** with 100% Recycled Content Paper

## DESCRIPTION

CorShield® VpCl®-147 HP is high performance corrosion inhibiting paper with an extra strength dose of Cortec's patented Vapor phase Corrosion Inhibiting Technology. Both sides of CorShield<sup>®</sup> VpCl<sup>®</sup>-147 HP offer effective protection to ferrous and non-ferrous metals, eliminating the need to stock a variety of papers for different metal types. All that is needed is to wrap items in the paper and fold the edges together, using adhesive tape as needed to hold paper in place. The VpCI<sup>®</sup> coating on the paper vaporizes, reaching all metal surfaces within the package to provide complete corrosion protection with a very thin, very effective VpCI<sup>®</sup> layer that does not alter product appearance or require removal before further finishing or use. CorShield<sup>®</sup> VpCI<sup>®</sup>-147 HP is made from 100% recycled content paper and is fully recyclable/repulpable.
