Eco Pouch

Environmental Breakthrough
Cortec® Corporation is proud to introduce a major step forward in the spray can technology -- EcoAir® -- air-powered spray can products. For the first time, we are providing spray cans powered by compressed air that completely replace expensive chemical propellants. This technology is innovative because a four-layer EcoPouch is inserted into a can, then the can pressurized. Finally, the EcoPouch is filled with the liquid. As the valve is depressed the surrounding pressure expels the bag’s internal fluids until the product is used up.

- No chemical propellants
- Non-flammable
- Able to spray in any direction, even upside down.
- No product contamination by propellant.
- Safer to ship and store, with very low or no environmental impact.
- Unique water-based products
- Recyclable aluminum can

Environmentally Safe
EcoAir® products do not contain propellants, CFCs, or HCFCs that affect the atmosphere, the ozone layer, or the environment. EcoAir® products are formulated with biodegradable, nonpolluting ingredients. EcoAir® eliminates waste disposal cost.

Environmentally Tested
EcoAir® products attack the toughest maintenance duties with respect for the environment. They incorporate non-toxic, biodegradable chemicals without traditional aerosols, propellants, or ozone depleting CFCs. Fast-acting, dependable, and safe to handle, EcoAir® leads the way in environmentally safe corrosion protection technology.

User Safe
EcoAir® products are specially formulated to improve safety for the consumer as well as the environment. These safety improvements are reflected in the HMIS ratings for each product shown (see chart below). The products do not contain 1,1,1 trichloroethane, methylene chloride, or chlorinated solvents.

Shipping Safe
EcoAir® products can be shipped by air freight or any other conventional shipping services.

Storage Safe
EcoAir® products do not have storage or added fire insurance restrictions. They can be stored like any non aerosol lubricant or cleaner. Store at room temperature. Do not allow products to freeze.
EcoAir® Products

EcoAir® BioCorr®
- Provides excellent multimetal corrosion protection
- Combines film-forming additives with VpCI®
- Displaces water and oil from metal surfaces
- Safe and easy to use
- Environmentally friendly
- Non-toxic

EcoAir® Cleaner/Degreaser, VpCI®-414
- Fast cleaning/degreasing
- Removes temporary coatings
- Removes oil and grease
- Multi-metal rust protection
- Biodegradable, water-based
- Non-flammable

EcoAir® Vapor Corrosion Inhibitor/Fogger, VpCI®-337
- Excellent indoor multi-metal corrosion protection during storage or shipment
- Immediate protection
- Up to 12 months protection
- Non-toxic, non-flammable
- Locking release valve

EcoAir® Corrosion Preventative, VpCI®-377
- Multi-metal corrosion protection indoors
- Forms clean, dry, hydrophobic film
- Environmentally safe, non-flammable, non-hazardous
- Water-based

EcoAir® Non-Toxic Rust Remover, VpCI®-422 & 423
- Biodegradable, organic rust remover
- Multi-metal rust protection
- Environmentally safe, non-toxic, non-flammable
- Approved for direct disposal in the North Sea
The Cortec® Eco Products Vision
Cortec® will continuously improve the environmental performance of our products and processes to provide a better world for future generations.

The cornerstone of Cortec’s history and future is based on the production of superior products to protect various metals from rust and corrosion. EcoAir® products exemplify Cortec’s long-standing commitment to conserve our natural resources.

Cortec® products derived from sustainable resources
Cortec® proudly and ambitiously develops products from sustainable resources to provide a better world for future generations.

We take the responsibility in conserving our natural resources seriously—we develop Cortec® products from annually renewable materials such as herbaceous plants from soybeans to the coconut fruit of the palm tree species.
