

SURFACE PREPARATION PRODUCTS

EcoAir® Graffiti Remover Enhanced with Nano-VpCl® Technology

FEATURES

- Low odor
- Protects underlying metal from flash corrosion after graffiti removal
- Free of methylene chloride and ketones
- Relatively low level of toxicity
- Non-drying gel
- No chromates
- No phenols

TYPICAL APPLICATION

- Walls, equipment, or any metal, concrete, or wood surface where graffiti exists

METHOD OF APPLICATION

Shake well before and during use. For best results, hold the can in any position 6-8 inches from the surface and spray until graffiti is covered. Allow chemical to penetrate graffiti or unwanted markings for 3 to 30 minutes. Scrape surface clean while rinsing with water.

Note: It is recommended to initially apply the product to an inconspicuous test area prior to full scale application.

PACKAGING AND STORAGE

EcoAir® Graffiti Remover is available in 12 oz. (340 g) recyclable steel cans. 12 cans per carton.

DESCRIPTION

EcoAir® Graffiti Remover is a semi-viscous liquid used to remove graffiti, inks, and paints from metal, concrete, and wood. The exceptionally smooth flowing gel helps achieve complete coverage for vertical surfaces or surfaces of varying geometry.

EcoAir® Graffiti Remover contains an inhibiting compound to prevent flash rusting and discoloration of metals after graffiti removal.

EcoAir® Graffiti Remover does not contain methylene chloride, chlorinated solvents, methanol, toluene, acetone, aerosols, propellants, or ozone-depleting CFCs. Unlike methylene chloride-based products that evaporate quickly, EcoAir® Graffiti Remover remains on the surface to soften, penetrate, and remove the unsightly markings. Removal time varies from 3 to 30 minutes, depending on the strength of the markings or graffiti.

Vandalism of public or private property with graffiti is an unfortunate problem that degrades businesses, neighborhoods, and municipalities. EcoAir® Graffiti Remover provides a portable way to remove graffiti and create a cleaner, more aesthetically pleasing environment.

EcoAir® Graffiti Remover comes in an air-powered spray can that dispenses the product by compressed air without the use of CFC or HCFC propellants that would affect the ozone layer. EcoAir® Graffiti Remover can be sprayed in any direction, even upside down. The steel can is recyclable.
