RE: VpCI-337F & VpCI-338

This is in reference to our telephone conversation of 17/12/98 concerning the use of the above products for use in the food industry.

RE: VpCI-337F

Based on the present available information, we have no objection to the use of this product as corrosion inhibitor on the exterior metal plate surfaces used in the manufacturing of metal container components for canned food products, with the understanding that:

- 1) there will be no contamination of food as a result of its use

RE: VpCI-338

Based on the present available information, we have no objection to the use of this product as a cleaner for poultry shackles/hooks, with the understanding that:

- 1) there will be no contamination of food as a result of its use
- 2) equipment or surfaces subject to direct contact with food are thoroughly rinsed with potable water after treatment with this product

I trust the above is in keeping with your request
