Cortec family enhances it's environmentally friendly product line with BioCorr® Rust Preventative

Cortec® Corporation is truly proud to present a new revolutionary product BioCorr® Rust Preventative! This waterbased, bio-based, and biodegradable rust preventative is intended for the preservation of metals in storage and during transportation. It provides multi-metal protection and is an excellent environmentally sound alternative to petroleum derived products. Considering the fact that the price of oil has crossed $ 100 per barrel, astronomical increase of anti - corrosion oil prices is inevitable. BioCorr® is the solution that will initiate a new era in the field of corrosion protection. This ready-to-use formulation provides protection for up to two years of indoor storage, as well as for shipments when combined with VpCIs packaging materials. It is much cheaper and more effective than oil. Unlike rust preventative oils, this innovative product leaves a dry film on the surface of the metal that is virtually invisible. Thanks to this feature you will be able to create a clean workplace and prevent material waste. BioCorr® Rust Preventative is VOC free and the formulation is biodegradable, eliminating expensive disposal costs associated with oils. By using this outstanding preventative you will get complete low cost protection during storage or during domestic and overseas shipments, eliminating any rust claims.

This environmentally friendly, 100% bio-based and biodegradable product reduces carbon emissions by 70%. It provides excellent multmetal corrosion protection while combining film-forming additives with Vapor phase Corrosion Inhibitors (VpCIs), displaces water and oil from metal surfaces and above all, using this preventative you will be replacing chlorinated compounds, chromates,or nitrites and can be applied by dipping or spraying It can be used as biodegradable preservative for machines and equipment, temporary coating for storage and shipment, protection of pipes, flanges, gears as well as for casting iron, sheets, and coils.

BioCorr® Rust Preventative is packaged in 5 gallon (19 liter) pails, 55 gallon (208 liter) drums, liquid totes, and bulk. Also available as EcoAir® BioCorr in 12 oz. (340 g) compressed air cans, 12 per carton.

About Cortec® Corporation

Cortec® Corporation is a world leader in innovative, environmentally responsible VpCIs® and MCI® corrosion control technologies for Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Our relentless dedication to sustainability, quality, service, and support is unmatched in the industry. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001 & ISO 14001:2004 Certified.
