

NEWS ALERT

Cortec® Corporation named a finalist for the Minnesota Tekne Award!

October 8, 2007

Cortec® Corporation was named one of three finalists in the Green Category for the Minnesota Tekne Award. The Green Award is a new category this year, honoring businesses that practice environmental awareness and responsibility and incorporate sustainability principles into their business.

A strong environmental concern is part of Cortec's program to produce and sell green products that protect materials of all kinds from environmental degradation. A strong commitment to produce biodegradable products and to use sustainable resources has been and will be our policy.

The Tekne Awards ceremony will take place at the Minneapolis Convention Center on the evening of November 1, 2007. Here the technology community will come together to celebrate Minnesota Innovation and to recognize Tekne award finalists and recipients - the best and brightest of Minnesota's diverse, tech-based culture.

Cortec® shares this recognition with finalists, Andersen Corporation, Bayport and Fabcon, Savage.

Cortec® Corporation is a pioneer of environmentally friendly, corrosion protection Vapor phase Corrosion Inhibitors (VpCI™) & Migratory Corrosion Inhibitors (MCI®) technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001 & ISO 14001:2004 Certified.
