

NEWS ALERT

NED Recognizes Cortec® EcoLine Cutting Fluid

June 16, 2006

Cortec® Corporation is pleased to announce that our EcoLine™ Cutting Fluid, has been featured in the June, 2006 issue of New Equipment Digest's Product Spotlight, (page 3 and 8). New Equipment Digest is the industry's most preferred product news magazine with a print circulation of 206,105.

EcoLine™ Cutting Fluid is a 100% biodegradable, bio-based product formulated with American renewable resources. It is an excellent inexpensive substitute for oil based cutting fluids that are dependant on decreasing oil resources and increasing oil prices. 100% biodegradable, EcoLine™ Cutting Fluid has a low environmental impact and can help companies lessen their environmental footprint.

In addition, the EcoLine™ Cutting Fluid will be featured in the July/August 2006 Issue of Home Shop Machinist Magazine.

This product release success is a result of the team efforts of Cortec's Technical Sales Manager Bob Boyle, Marketing Coordinator Gergana Kambitova-Tran, and Tomas Gardebring of Blue Leopard Interactive.
