## Join Us at AMPP 2024 to Celebrate Boris Miksic's 50<sup>th</sup> Year in the Industry!

**Pierre Crevolin, President of NACE International, delivers the Frank Newman Speller Award to Boris Miksic, FNACE during NACE Expo 2004**

It is almost time for AMPP 2024, and this year is extra special! We invite you to join us at the March conference in New Orleans as we mark a special milestone for Cortec® founder and CEO, Boris Miksic, FNACE: 50 years in the corrosion control industry!

Over the last 50 years, Boris has had 66 patents issued to his name and has played a prominent role in the National Association of Corrosion Engineers (NACE, now AMPP). Boris has chaired NACE symposia and task groups, helping to develop important industry test standards. His findings on Vapor phase Corrosion Inhibitor Technology have been published in AMPP's *Corrosion: The Journal of Science & Engineering*. He is listed as an author on 35 NACE/AMPP papers and 16 articles published in AMPP's *Materials Performance* magazine or supplement. He won the NACE Frank Newman Speller award in 2004, the same year Cortec® Corporation received the NACE Distinguished Organization Award in New Orleans. Boris has also lectured at NACE conferences as far away as Quito and Abu Dhabi.

In addition to congratulating Boris on this anniversary and listening to his remarkable stories from a half century in corrosion control, you are encouraged to take advantage of the upcoming conference to connect

with our sales and technical team for product and technology updates. As usual, AMPP 2024 will also have an almost endless menu of technical content from industry leaders. We especially look forward to having several of our laboratory and technical staff members present papers at various symposia. Cortec® topics are as varied as corrosion in gearboxes, VCIs in compostable film, biobased technology, CUI protection, and flash rust inhibitors in cleaning fluids.

We hope to connect with many of you and, together, to expand our understanding of industry needs and possibilities as we reconvene with thousands of corrosion prevention professionals. [Register today](#) and [let us know you are coming!](#)
