## Case History Spotlight #27: Cutting Costs on Septic Tank Pumping

*For illustration only. Image courtesy of Adobe Stock.*

After completely pumping out his 400 L (1500 gallon) septic system, one homeowner began flushing a monthly dose of [ECO-SEPT™](#) down the toilet. These pouches contain a diverse microbiology designed to activate biodegradation of solid waste. Five years later, the homeowner had passed all inspections without requiring his usual two-year pumping frequency, saving hundreds of dollars on routine maintenance costs.
