Cortec® Middle East Launches The First Integrated Corrosion Solution Partnership In The Kingdom Of Saudi Arabia!

Cortec® Middle East continues to strengthen and expand its regional presence in the corrosion control industry with a strategic partnership in the Kingdom of Saudi Arabia. The first integrated corrosion solution partnership between Cortec® Middle East and Abdulla Fouad Impalloy Ltd. Co. (AFIC), the Kingdom's foremost cathodic protection company, was launched Monday, February 16th, 2015.

The event brought 75 representatives from top local educational institutions, major oil and petrochemical operating companies, leading engineering firms, and contracting companies together. Attendees were briefed on the latest advances in the field of corrosion control including Cortec's Corrologic Solutions for the following applications:

- Soil-side corrosion mitigation for Aboveground Storage Tank bottoms (AST)
- Corrosion Under Insulation (CUI)
- Cased Pipeline Crossings (CPC)

AFIC and Cortec® ME concluded with attendees feeling well informed and excited about this partnership and its potential impact on the current and future industrial best practices in the field of corrosion control. "We are enthusiastic to begin this partnership with Cortec® Middle East, which will allow us to support our existing wide network of customers with innovative solutions to their corrosion challenges" stated Salman Al-Zayani, BDM of AFIC. "With this partnership, we look forward to further expanding our established presence in the Saudi market in the field of corrosion control and mitigation" commented Khalil Abed, BDM of Cortec® ME.

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001, ISO 14001, and ISO 17025 Certified.
