## Cortec's Global Network: Solving Corrosion in Every Corner of the World!

Corrosion has no borders, which is why [Cortec®](#) corrosion solutions can be found in every corner of the world. For decades, Cortec® has relied on the invaluable support of its global network of distributors to deliver answers to their customers' rust problems. Today, those distributors continue to be valued team players who make corrosion control possible in more than 100 countries around the globe!

### Cortec® Distribution from A to Z

Cortec's current distribution network includes 115 countries on six continents. Getting solutions out to the world starts with production/distribution at Cortec's main offices in the United States, Canada ([Bionetix®](#)), Croatia, and Malaysia. It continues with distribution to end users via Cortec® branded offices and local distributors in countries from A to Z—Australia, Azerbaijan, Vietnam, Yemen, and Zambia, to name a few!

### Cortec® Distributors: A Critical Link

Cortec® distributors create a critical link between Cortec® and end users. Located in the same region as end users, distributors are often the ones who understand customer needs the best and can share viable product recommendations—either by passing on Cortec® technical advice or sharing firsthand product application knowledge. Many distributors are subject matter experts after years of using Cortec® solutions in the field and therefore know what products and quantities to keep in stock for ready access. Their expertise is especially evident when distributors from around the globe gather for knowledge-sharing sessions that mutually educate and strengthen connections in the Cortec® global network even further.

**Keywords:** Cortec, corrosion, Cortec network, where can I buy Cortec products, how can I become a Cortec distributor, how to prevent rust, how to remove rust, VpCI, MCI, corrosion solutions
