**PRESS RELEASE**

## **Discover the Probiotic Cleaning Power of EN-Z-KLEAN™ Ultra Laundry Detergent!**

[Bionetix® International](http://Bionetix® International) is pleased to announce the introduction of [EN-Z-KLEAN™ Ultra](http://EN-Z-KLEAN™ Ultra), a new probiotic laundry detergent concentrate that is more stain-specific and versatile than previous versions of EN-Z-KLEAN™! This improved industrial strength laundry detergent adds the power of probiotics to an already-effective enzyme laundry detergent for enhanced cleaning power and ongoing laundry system maintenance benefits.

### **What Is EN-Z-KLEAN™ Ultra?**

EN-Z-KLEAN™ Ultra is a versatile enzyme-based liquid detergent that can be used in industrial and commercial laundry applications. It offers outstanding cleaning and stain removal power at cold and warm temperatures up to 65 °C (149 °F). It can be used as-is to target very heavy stains in industrial applications (presoak). It may also be diluted for resale as a ready-to-use commercial laundry detergent or diluted onsite by the end-user.

## Natural Cleaning Power

Enzymes and probiotics enhance EN-Z-KLEAN™ Ultra with natural cleaning power. Free enzymes target and digest specific stains that are common in heavily soiled laundry. When used as a presoak, a healthy supply of good bacteria in EN-Z-KLEAN™ Ultra also awaken and add their stain digesting and cleaning power to the equation. Better yet, while EN-Z-

KLEAN™ Ultra is tough on waste, it is gentle on nature. It is phosphate-free and produced with ingredients that are readily biodegradable and do not harm fabrics or hands.

## Ongoing Probiotic Benefits

The probiotic benefits of EN-Z-KLEAN™ Ultra continue even after laundering is done. When these beneficial bacteria enter drains, septic tanks, and wastewater systems, they can continue digesting contaminants, helping keep the wastewater disposal system in balance. Unlike some bleaches and strong chemical detergents that may shock a septic system and slow the biodegradation of waste, EN-Z-KLEAN™ can actually improve septic and wastewater conditions and make the process more efficient. Probiotics that linger and stay adhered to surfaces in the washing machine basin also have potential residual cleaning and maintenance benefits on the laundry equipment itself.

## Economical and Versatile

In addition to its cleaning benefits, EN-Z-KLEAN™ Ultra offers users and commercial laundry detergent suppliers the economical advantages and flexibility of shipping and storing a concentrated product that takes up less space than a ready-to-use (RTU) detergent. Commercial laundry soap suppliers can dilute EN-Z-KLEAN™ Ultra 1:4 or 1:3

with water and resell it as a liquid gel detergent, or commercial laundry facilities can buy the concentrate in bulk for the flexibility of diluting EN-Z-KLEAN™ Ultra to the desired strength needed for specific loads or extra tough stains.

### Take Advantage of EN-Z-KLEAN™ Ultra Cleaning Power!

Whether for commercial laundry detergent suppliers or end users, EN-Z-KLEAN™ Ultra offers exceptional benefits by harnessing the technology of nature for ultra cleaning power in the washing machine and beyond. A product information sheet for Bionetix International's EN-Z-KLEAN™ Ultra Probiotic Laundry Detergent Concentrate. The sheet includes the Bionetix logo, a photo of laundry machines, and detailed text about the product's benefits, applications, and specifications. It also features a table with product details and application instructions.

**EN-Z-KLEAN™ Ultra**  
PROBIOTIC LAUNDRY DETERGENT CONCENTRATE

**PRODUCT DESCRIPTION**  
EN-Z-KLEAN™ Ultra is a powerful, eco-friendly, and non-toxic laundry detergent concentrate. It is designed to be used in commercial laundry facilities, where it can be diluted with water to create a liquid gel detergent. The product is made with natural, biodegradable ingredients and is safe for use on all types of fabrics. It is also safe for the environment and can be used in septic systems.

**PACKAGING AND STORAGE**  
EN-Z-KLEAN™ Ultra is available in 5-gallon and 20-gallon containers. It should be stored in a cool, dry place, away from direct sunlight and moisture. The container should be kept tightly sealed to prevent contamination.

**FEATURES AND BENEFITS**

- Phosphate-free
- Safe for septic systems
- Made with rapidly biodegradable components
- Tough on industrial stains
- Continues to work in drains and septic tanks after laundering

**TYPICAL APPLICATIONS**

- Laundry pre-soak
- Industrial facility concentrate
- Commercial laundry detergent

**SPECIFICATIONS**

Description	Blue Liquid
Fragrance	Fresh
Stability	Max. 10% of 1.0g/L
pH	7.5-8.5
Bacteria Count	10 <sup>6</sup> CFU/mL

**APPLICATION INSTRUCTIONS**  
The product can be diluted 1:4 or 1:3 with water to become a liquid gel detergent. It can also be used undiluted for highly soiled items. Use 100ml of EN-Z-KLEAN™ Ultra for large loads and 40ml of EN-Z-KLEAN™ Ultra for normal loads. For tough stains, place a small quantity directly on the stain and rub into fabric or allow to soak before washing.
