## Cortec® Corporation Announces Stock Products for European Market.

January 31, 2008

Cortec® is pleased to announce that EcoCortec® has developed a stock product list for both VpCI™ and biodegradable films. Produced at Cortec's plant in Beli Manastir, Croatia, there are currently more than 20 metric sizes and configurations available. All of the sizes are commonly used and meet European standards for measurement. Products included in the stock program are:

- VpCI-126®
- VpCI-126® Zipper Closure
- Cor-Pak® Stretch Film
- Eco Film™
- EcoWorks® 45
- Eco Wrap®

Please contact Ivana Borsic for more information such as pricing and availability.
