

Groundbreaking Ceremony For EcoCortec's New Plant!

City Delegation of Beli Manastir has gathered at EcoCortec® with Cortec's CEO Boris Miksic and numerous guests for a ceremonial groundbreaking in front of the plant. The ceremony celebrated the building of new manufacturing plant and featured speeches by Beli Manastir's Mayor, Tomislav Rob and Cortec® President and CEO, Boris Miksic. Members of the press were on hand to cover the event.

Boris Miksic has greeted the guests in his speech and highlighted how satisfied he is with business of Croatian plant. „Building a plant in Beli Manastir is one of my best business projects so far, not only because it is in my home country, Croatia, but because we are truly achieving outstanding results. We have excellent team and logistics and our sales and production are increasing. For this reason I decided to build another plant, because the demand for EcoCortec's

NEWS ALERT

products on the market is continuously growing“. Mayor of Beli Manastir has noted the importance of such projects for Baranja region and mentioned how proud he is of successful cooperation between plant's Management and the local government.

Current expansion project is being co-financed by Croatian Ministry of Economy, Entrepreneurship and Crafts within European Funds Programme. By strengthening the plant's position in the market, new requirements for equipment and additional space are growing every day. Expansion and growth of production and building capacities as well as our team is an important part of EcoCortec's strategy but also comes as result of very good business results.

After the groundbreaking ceremony our guests have enjoyed Baranja specialties at EcoCortec's traditional Christmas Party. Catching up with old friends, colleagues and partners is always great especially in the Christmas spirit of unity and joy. EcoCortec's team was thrilled that this year we had a double reason to celebrate and are looking forward to all the plans ahead of us in 2018!
